

Pre-Dental Instructions

- Administer antibiotics 3 days prior to the dental
- Do not feed your pet after 9 PM the night before the dental. They may have water.
- Be sure to give your pet any medications dispensed as well as any routine medications (i.e heart, thyroid, etc) in the morning before the dental. This includes the antibiotics. It is fine if you need to administer a pill with a small piece of food.

EXCEPTION:

*****DO NOT GIVE ASPIRIN WITHIN 5 DAYS OF THE DENTAL*****

- Drop off your pet at 7:30 AM the day of the dental.
